(½" HICO/High Energy - 4000 OE)

HID   12345 YYYYYYYY-YY

12345 = Card ID Number
YYYYYYYY-YY = Sales Order Number

Option - Custom Artwork[1]
☐ _____ (Specify Artwork Number - Refer to the Custom Artwork Forms for new Artwork)

Enter your final card options from check boxes above. Example: 1336LGGMN

Final Part Number						–	(Options #)

125 kHz Card Programming Information

Format Number	Field Name(s) e.g. Facility Code	Value	QTY	Encoded Start Number	Encoded Stop Number
				Printed Start Number	Printed Stop Number

[1] For new artwork files, contact Customer Service for custom artwork number, lead-times, and cost.

[2] Cards ordered with plain white front and back packaging, with no HID artwork or with custom artwork, will still have a small HID logo **HID** and reference number printed in the lower left-hand corner and a slot punch target printed on the back of the card. Most part numbers are marked with the sales order number. A custom part number is required to omit all marking from the card. Contact your local support representative for details.

[3] The Printed card number is placed in the bottom right-hand corner on the back of the card.

[4] Cards are provided with an optional slot punch at no additional charge. Some video imaging printers cannot accommodate pre-slot punched cards. Consult with the printer manufacturer prior to ordering.

[5] Please note that cards shipped within the Americas are always laser-engraved. Inkjetted option is not available for these cards.

[6] Programmed as a sequential 12 digit number.

* The composite construction is recommended for all cards that will have an over-laminate applied.
